State-guaranteed loans and postponement of payment deadlines Crédit Agricole Group figures

All of the teams from Crédit Agricole's regional banks, LCL and CACIB have mobilised to continue to support business customers, professionals, retailers and farmers who are facing challenges linked to the ongoing health crisis.

One week after the implementation of state-guaranteed loans, the Group has already supported companies and entrepreneurs via:

- 41,600 requests for state-guaranteed loans processed for a total of 6.7 billion euros
- 271,700 loan payment deadlines suspended for six months, representing 2.8 billion euros.

The 50,000 advisers throughout the Group's networks remain available in the majority of branches in order to meet customers' needs. In addition, the networks, websites and applications remotely ensure banking services, insurance and payments essential to customers' activity.
